News for Parents and Carers at Red Hall Primary School

April 2016

MARVELLOUS ME IS QUITE SIMPLY... MARVELLOUS!

On the 25th of November last year dozens of you came to our first BIG meet for parents. At that meeting you voted to give the MarvellousMe app a go and it has gone on to be a MASSIVE success! The app allows teachers to send marvellous news about children straight to the smart phones of their parents. Hundreds of you signed up to the free app and you have been high fiving thousands of times. In fact since we started you have been sent 4750 messages from classrooms! Parents have loved hearing about the progress children have been making and we have loved sending the messages home.

78% of parents have signed up to MarvellousMe so far. That is 173 parents! In key stage 2 the most messages have been sent from Class 3 with over 900 messages sent. Class 6 is only a few messages behind.

As teachers we know that every day the children are doing amazing things and MarvellousMe allows us to tell you about them. If you haven't signed up yet then just pop into reception and see Mrs Keeley who has all the information you need.

Being in touch with you more about all the great things the children are doing each day is just one of the things we are doing to turn Red Hall Primary School from a good school into an outstanding one! We couldn't do it without your help.

The next thing to look out for is our new website. Have you had a look at it yet and checked out the fabulous photographs? Go on and have a look! redhallprimary.org.uk
